

Every Time I Sleep at Night

My imperfection's
Are known far and wide
Missteps listed like a creed

But I've got a consolation
Some sort of prize
That brings satisfaction, guaranteed

Every time that I sleep at night
I know that you'll hold me tight
Every time that I sleep at night
Oh

Every time that I sleep at night
I know that you'll hold me tight
Every time that I sleep at night
Oh

No sort of affliction
Can leave me blind
To the kind of love that I need

And no past affections
Are more refined
Than my best known remedy

Every time that I sleep at night
I know that you'll hold me tight
Every time that I sleep at night
Oh

Every time that I sleep at night
I know that you'll hold me tight
Every time that I sleep at night
Oh

My miseducation
In the realm of the friars
Helped set a course for a rocky sea

But there are things to learn
From a pack of liars
About the kind of salvation that sets me free

Every time that I sleep at night
I know that you'll hold me tight
Every time that I sleep at night
Oh

Every time that I sleep at night
I know that you'll hold me tight
Every time that I sleep at night
Oh

No celebration
No fancy fliers
No need to wear it on my sleeve

Yeah there's just one thing
That my heart desires
And I've come to know it easily

Every time that I sleep at night
I know that you'll hold me tight
Every time that I sleep at night
Oh

Every time that I sleep at night
I know that you'll hold me tight
Every time that I sleep at night
Oh

End
