

## Warm Enough to Snow

Looking round these streets tonight  
Heart's sinking low  
Faces that are passing by  
Show no signs of hope

No spring on the horizon  
Sun is just for show  
If you ask the forecast now  
Only answer I know

It's warm enough to snow  
It's warm enough to snow  
Only answer I know  
It's warm enough to snow

Satisfaction guaranteed  
If your aim is low  
Loyalty and fealty  
Rewarded with a blow

Being on top is no achievement  
If your heart's in tow  
Check which way the wind is blowing  
I'm sure that it'll show

It's warm enough to snow  
It's warm enough to snow  
Only answer I know  
It's warm enough to snow

Forgive the seeds of despair that I sow  
I'm lost in illusion I know  
Give the benefit to the doubter of hope  
Cast a spark, and let it glow

Hard to count on human nature  
Keep hoping it'll grow  
Celebrity or dignity  
Which puts you in the show?

What will be your legacy  
What gifts will you bestow  
Just one forecast in the air now  
Only one I know

It's warm enough to snow  
It's warm enough to snow  
Only answer I know  
It's warm enough to snow  
(repeat)
